Enormous Plane Built by British

This enormous bombing biplane, p robably the largest ever built, stands nere than forty feet above the ground. An indication of its size may be seen from the comparison of the men near by. It also carries a mathine gun forward of the propeller, with a man to operate it. German pilots dread these great British planes, because they are much more difficult to bring down than the smaller planes.

TONLINGON INCIDENT

Newlyweds on Auto Tour Lose Box of Bride's Finery and it is Eventualy Located

Mr. and Mrs. M. L. Gezon of Grand Rapids, Mich., newlyweds, were guests of Mr. and Mrs. O. J. Bouma, their cousins. They were on their way to Seattle, Wash., and while driving their Haynes from St. Cloud to Brainerd lost a valuable box of the bride's finery, a lot of filmy, shimmery, beribboned, silky things.

Mr. Bouma acted as the fairy godmother in the dilemma and inserted lost ads in Brainerd, St. Cloud and Minneapolis papers. The couple motored from Brainerd and shortly after one Miller of St. Cloud telephoned he had found the clothes.

Then Mr. Bouma was in a pretty pass to find the newlyweds. He used the Northwestern line and told long distance that somewhere between Brainerd and Fargo was a pair of newlyweds bound for Seattle in a Haynes car. In half an hour they reached the delighted bride.

Northwestern. It also shows remark-[and W. F. To Save Vessels From Sinking.

Interest has been aroused by an apparatus that has lately been developed to save ocean vessels from sinking Miss Louise Sather and James De after being torpedoed or damaged by collision. The contrivance, which is shown in Popular Mechanics Magazine, comprises a laminated steel disk, of the school. to the center of which is attached a series of rubberized canvas cone shaped buckets. In use, the end cone on the chain would be lowered into the water in the vicinity of the hole in a ship's hull. Upon being caught by the inrushing water, it would be pulled DIVER ATTACKED through the opening. The whole string of buckets would then be lowered along would be pulled in place over the break. "Toys of Fate," starring the reat Nazimova, which will be shown at the Best theatre again tonight, declared to have surpassed her marvelous work in her previous Screen Classic, Inc., super-picture, "Revelation." As a gypsy princess, Nazimova brings all the histrionic talent which has made her famous into effective play.

At the Best Tomorrow

Sara Crewe, the motherless daughter of Captain Crewe, is in love with her home life with her father in the fascinating city of Bombay in India. When the necessities of business require that Captain Crewe take his little daughter to London and leave her or the time being in Miss Minchin's boarding school, the parting of the father and daughter is full of unhappiness for the child.

Although the rich little girl must be well cared for by the hypnotical Miss Minchin in the absence of the Captain, Sara's life at the school, made pleasant by her girl companions is continually tinged with longing for her father. Sara at once makes a friend of Becky the slavey of the establishment, for Sara's kindness of poor girl which the rather snobbish children of the school have never thought necessary. While Captain Crewe is off again to India, as a partner with his best friend in a diamond mining venture, Sara takes up the life of the boarding school with a heart as cheerful as possible.

Shortly after this incident come the news that Captain Crewe having been robbed by his best friend of every cent which he had in the venture, had died in India. Sara, now penniiess, is made a slavey, working like Becky and sleeping in a dingy attic

After many heartbreaking experiences Sara Crewe is rehabilitated in wealth and Mr. Carmichael, her father's friend, arranges to remove her from the school and take care of her in the proper manner as the little the slavey companion in misery, Sara takes Becky along with her, and she, Becky and Carmichael, are united in happiness around their own Christ-

AID TO RUSSIA

the wonderful Russian star, has been Allied Nations and the United States Are Perfecting Their Plans.

OFFICIALS ARE ACTIVE

Conferences Between President Wilson and Secreatry Lansing and Allied Ambassadors Continue-Details Are Withheld.

Washington, July 10 .- Though announcement of their exact nature may be withheld for military reasons, pre parations for action under the policy toward Russia approved by the United States are going forward steadily and it is apparent that there will be developments soon.

Conferences between President Wilson and Secretary Lansing and the Allearned that Viscount Ishii, Japanese ambassador called at the White House and conferred some time with the President in regard to the situation in Siberia. The Japanese government heart causes her to do things for the had expressed its willingness to do whatever was necessary in a military or naval way to safeguard its own interests and that of the Allies in Siberia if the approval of the United States government was forthcoming. so it is understood that the President desired to outline fully to Viscount Ishii the course of action which America desires to pursue.

Lord Reading, the British ambassador, who has been acting as spokesman for the other Allied ambassadors. having been informed personally by President Wilson of the determination that had been reached, and after having had another conference with Sec retary Lansing at the State depart ment to discuss details of the plan of operation, transmitted this information to the French and Italian ambassadors for communication to their home governments. So as soon as a few details are arranged and the necessary cooperation and co-ordination princess which she is. Faithful to of effort is provided for, the execution of the project will begin.

It has been learned that the project upon which attention is centering is an expansion of the plan to encourage any elements in Russia that are really opposed to Germany to get together in armed resistance by extending them such aid as they may need in the way of material, food, clothing and even arms and ammunition.

Will Send Supplies via Siberia. Through commercial and industrial representatives thes supplies are to be introduced by way of Siberia, the evens engineering mission preparing the way by the reconstruction and improvement of the Siberian railway It is understood to be the purpose now to make this movement an international one and to extend the plan for protecting the agents and supplies from the Germans or hostile Russlans by heavily armed guards.

Proceedings in Bankruptcy Bankrupt's Petition for Discharge.

In the District Court of the United States, for the district of Minnesota. Fifth Division

In the matter of Jennie Smith, bankrupt in bankruptcy.

To the Honorable Page Morris, judge of the Distrist Court of the United States for the District of Min-

Jennie Smith, of Crosby in the County of Crow Wing, and State of Minnesota, in said district, respectully represents that on the 17th day of July, 1917, she was duly adjudged a bankrupt under the acts of Conress relating to bankruptcy; that she has duly surrendered all her property and rights of property, and has fully complied with all the require ments of said acts and of the orders of the Court touching her bankruptcy Wherefore, she prays that she may Controller von Waldow announced in discharge from all debts provable against her estate under said bankruptcy acts, except such debts as are excepted by law from such discharge. Dated this 17th day of June, 1918.

JENNIE SMITH,

United States District Court, Disrict of Minnesota, Fifth Division, ss. On this 6th day of July, A. D. 1918, on reading the foregoing petition, it is ordered by the court, that a hearing be had upon the same on the 29th partment of Labor as authorized by day of August, A. D. 1918, before methods for a more effective use of at ten o'clock in the forenoon; and women's services in war industries is that notice thereof be published in the Brainerd Dispatch, a newspaper announced by Secretary Wilson. TO SCHOOL OFFICERS OF CROW WING COUNTY:

To School Officers of Crow Wing County:

A serious outcome of war conditions is the threatened lowering of efficiency in teaching. Thousands of trained teachers are leaving their school positions for war service or industries, paying higher salaries.

This problem presented to Boards of Education must be met promptly and vigorously. The time is such that the child and his proper preparation both physically and mentally, are first consideration to our nation. One might well say that the safety of the nation and the welfare of the people are involved inthis particular crisis. Part of the problem you may solve by raising teachers salaries, as I know you have done-paying and holding the best, while you are weeding out the useless, idealess teachers. Conditions following the war will require even a higher standard of general intelligence, industrial efficiency and civic equipment.

This year/Patriotism calls upon the fulfillment of contracts, by both parties, as never before.

You, as School Officers, with your teachers, become the leaders of patriotic efforts in your community. Visit the school often. See that Americanism is the ideal your teacher has ever in mind and report to me any lack of patriotism on your teacher's part. Let us work together as never be-

I want to bring to your attention also, from the side of the physical need of the child-the possibility of a trained nurse for the rural districts. I believe we may secure a nurse if you use your influence-write or speak to your County Commissioner-and urge the desirability. A great many of the counties are already so provided and the result for the better is plainly seen. We speak of our time, as the "day of the child". This day has been long coming-let the importance of this idea grow in our minds. The world's greatest assest. "Our Children."

The annual report soon to be in my hands, MUST be correct, do not let it be necessary to have any one returned

It is for you to see that the Schoolhouse is in good shape for another year, clean and in repair, when the teacher takes charge. There has been a great improvement in the upkeep of our school buildings during the last few years -for which I congratulate you. More can be accomplished. Let it be considered an honor, not a necessary evil to be on the School Board. The importance of the work makes it an

It must be remembered that under the existing laws no form of religion may be taught in the school-but right living and good morals must be taught by every teacher.

It might be wise to vote at your annual meeting a sum of money to be set aside for patriotic purposes if so needed. This is simply a suggestion and I leave it to you to decide on this. The law is not prepared for such an emergency, but it is being done without question throughout the state.

With best wishes for a rich school year, IRMA C. HARTLEY.

GARBAGE FOR HOGS

It is the patriotic duty of Ameri can citizens to convert garbage into wholesome food rather than into heat and electricity by incineration, Food Administrator Herbert C. Hoover declared in praising the plan adopted in said. Minneapolis of feeding the refuse to

"By feeding garbage to hogs insave its taxpayers between \$50,000 few prisoners, the war office anand \$60,000 annually," said Mr. Hoover in a statement.

utilizing garbage, the individual can do likewise in smaller measure of course, and wherever possible a pig should be kept and the waste and gar bage fed him. This is being done in outlying portions of Brainerd and where the pig and sty are kept clean the keeping of one pig per family in these war times should not be frowned on by city ordinance but should be encouraged. With pork scaling the highest prices in history, the average man feels like raising his hat to a pig nowadays. A brood sow down at St. Mathias last week sold for more than a team of horses commanded two

years ago. To revert again to Minneapolis and That city has been operating a \$110,-000 incinerator and utilizing the steam produced in generating electricity. During 1916 the cost of operation, plus interest and depreciation, and allowing credit for electricity, resulted in a \$24,000 deficit.

For the remainder of 1918, the city will receive \$1.26 a ton for its garbage as hog feed, thus not only saving the former expense, but bringing a revenue of between \$30,000 and \$35,000. This means a saving to taxpayers of between \$50,000 and \$60.

The aggregate population of cities using this method of garbage disposal DR. VON KUEHLMANN RESIGNS including Minneapolis, exceeds 700, 900 and the garbage will produce, on a conservative basis 3,000,000 pounds of marketable pork per annum. Investigations show that vegetable and fruit peelings, grizzle and table and kitchen scraps, inedible by humans, Bareau of Berlin says it is reliably reconstitute a minimum below which the amount of city garbage does not

This material, when freshly collected, produces pork of good quality.

SENTENCED TO WOOD PILE

In these soft, balmy days, when a man can go fishing and drive a car and pull radishes out of the garden and go swimming and everything seemed a heaven on earth, 'along comes the fuel administrator,-(it's been so nice and warm nobody has thought much about wood or coal)and sentences the whole Crow Wing

county to the woodpile this winter. Uncle Sam needs the coal to win the war. You and I and all of us got to dig up that ax, sharpen it and

THE BRAINERD DAILY DISPATCH said there was wood enough to keep the county going.

> The Fuel Administrator means business and every loyal citizen will get busy right away, saw wood and say

'DURING PENDENCY OF WAR'

spent in acquiring the New York Daily Oft Recurring Phrase in Bills Reveals How Unprepared We Were From a Legislative Standpoint-Representative Kinkaid Seems Certain of Re-

By ARTHUR W. DUNN.

Washington.-Complaint is made lowed by a statement that this country and three British machines were lost to follow the evidence accumulated serting the allies, German propaganda has heretofore been credited with hav ing turned the scale in Russia. But Kaiser Bill and Emperor Charles have

As to propaganda, it is very doubtful whether the United States could have done anything since our entry into the war to prevent the catastrophe time that the New York Mail had been in Russia. Before that time our neutrality would have made it impossible for us to use propaganda for or against \$2,000 of the figure disclosed by the Germany. It should also be remembered that the Germans have been us-In the light of the accuracy of this ing the propaganda in Russia for a representation regarding the purchase dozen years for the very purpose of accomplishing the results that have been so favorable to the Germans.

"During the pendency of the war," is a phrase which finds its way into a great deal of legislation that is pass- order.—Rev. T. T. Carter. ed these days. No doubt when the war s over it will be found that some of than New York and that if the De-the legislation that has been enacted partment of Justice gets to the bottom with the phrase, and with the idea of limiting it simply to the war, can be made adaptable to future conditions and will be continued. The people have no idea of the amount of legislation that has been written on the statute books for the purpose of conlucting the war against Germany This is an evidence that the United States was wholly unprepared for war, not only from a military standpoint, out also from a legislative standpoint. Even the president of the United States, who, as commander-in-chief of the army and navy, is clothed with alnost unlimited power during a war, found it necessary to have reams of legislation enacted in order to carry on a big foreign war.

Whatever else may happen it seems almost certain that Moses P. Kinkaid will be returned from the Sixth district of Nebraska. Kinkaid is one of the men that attend strictly to business all the time. He never hankers for adjournment nor does he seem to think t necessary to go out and fix up his Amount of Reserve required by law ... \$ 4 911 96 fences. He is not much in evidence on the floor of the house in the way of making speeches, but he is generally there when the votes are taken and he there when the votes are taken and he the best of our knowledge and belief.

CAUSE AND CURE OF CRAMPS

Too High Blood Pressure Frequently Brings Them On-Removed by Vigorous Rubbing.

In this article we shall discuss only the local muscular spasms that affect most commonly the calves of the legs but that sometimes occur in the thighs the arms or the wall of the abdomen Internal cramps, or colic, swimmer's cramp and writer's cramp are affect tions of an entirely different nature.

A cramp, in this restricted sense, is a sudden, painful and very strong con traction of a small part of a muscle it does not usually cause any move ment in the rffected limb, for to do that a contraction of nearly the entire muscle is necessary, and then we have what is called a spasm, or a convul-

The contraction is involuntary, although persons who are subject to cramps sometimes bring them on by voluntary movement, such as stretch ing. The early-morning cramp is often brought on by the stretching to which one is prone on awaking. Very commonly the cramp comes on during the sufferer with a start. part of the muscle forms a hard knot, and if a large part of the muscle is involved the limb may be drawn up.

Children and the aged suffer more often with cramps than do persons in middle life. In children the cause is usually violent exercise, such as runice. Let England's example suffice: be operating about 1,600 miles east ning and jumping, but in the elderly a tendency to cramps is often caused by incipient hardening of the arteries. When the blood pressure is high cramps often occur, but they cease to trouble if the pressure is reduced. Persons who are rheumatic and gouty are especially liable to be attacked by cramps-very likely because hardening received at the State department from of the arteries accompanies their constitutional disposition.

The treatment of a single cramp of arising from the food shortage and the calf is very simple; stand on tiptoe in such a way as to stretch the calf muscle and at the same time rub Nothing has been heard there from the place where the contraction has the American consul, who left Tabriz occurred. That will put an end to the attack promptly. If the attacks recur frequently, there is probably some constitutional fault that needs correction, and the sufferer should consult his physician .- Youth's Compan-

Soldier's Intensely Pathetic Description of the Burial of Youthful Scottish Officer With His Men.

I stood one night on a certain hill almost soundless panorama. Beside me was an officer of the Second Canadian division, who had just come out. There that night, by its white trail of iridescent light, we could trace the course of the firing line for many miles through France and Flanders.

Just to our left the line of light jutted far out, like a lone cape into the sea. "What is that jutting-out place?" my friend inquired.

"That," I answered, "is the Ypres salient, the Bloody Angle of the Brit-

To mention the name of Ypres is to have one's memory awakened with a veritable kaleidoscope of pictures, That trail of light that jutted out into the night looked like a cape, and an iron cape it has been through months and years of war. But the holding of that cape has been at an awful cost, and there was not an inch along that trailing line of light that had not cost its trailing line of blood.

Just after the first gas attack in April, 1915, the whole countryside was in a panic. The roads were filled with civilians in alarm, fleeing down country, and with limbers and marching troops hastening up. I was passing through the town of Vlamerthigne, which is situated two miles beyond

THEIR FINAL REST TOGETHER Ypres. In a neid at the side of the Catarrhal Deafness Cannot be Cured road I saw a funeral party. It consisted of several pioneers, serving as grave diggers, a gray-headed Scottish major, and a corporal's guard to act tarrhal deafness, and that is by as firing party.

I learned that this inconspicuous that commands the firing line in an group were burying the last original officer of a battalion of the Cameron Highlanders. The dead officer was a young subaltern, and the gray-haired old major was his father, who had come from another regiment to attend the funeral of his son.

where a number of the rank and file of the fallen Camerons were already laid. the body of their dead subaltern was placed. As I saw the officer and his men of the bonnie Highland regiment thus laid to rest together, I thought of the requiem of Saul and Jonathan; They were beautiful in their lives, tarrh Medicne. GOOD HIGHWAYS SAVED PARIS

Example of French Capital Cited to Press Home Plan of Improved Roads in This Country.

The congestion of traffic which bas activity during the last few months funds. Pleas of not guilty were also equipment for long hauls. Freight canentered for her two sons, Sterling not be successfully handled by motor-

There is also a growing tendency on present, because they are in govern. the part of manufacturers and wholesalers to have their salesmen travel by automobile instead of by railroad trains, writes C. S. Rieman, president of a large motorcar concern, in Chicago Post. This also further helps to solve the traffic problem. But the extensive use of trucks for cross-country hauling and of passenger automobiles by salesmen and others, instead of tend a church that has an unmarried traveling by train, will depend to a large extent upon road conditions.

It also occurs to me that since our transportation facilities have been so seriously overtaxed by extra traffic resulting from our war preparations to date, the enormous increase in war ectivities for which preparations are now being made will result in further serious delays, unless a large portion of the traffic can be handled by motor trucks. In order to appreciate the im portance of good roads from a military standpoint, we have only to recall the fact that in all probability Paris would have been captured by the German army in their first great drive had it not been that the excellent French roads permitted the quick concen trating of French troops by means of motortrucks, passenger automobiles and taxicabs, which played so imporrailroad system.

The prosperity of any country and the advance of civilization are always measured by the transportation facili-

Convoys of Rapid-Fire Cannon on Way to Front in France.

ties. As a manufacturer of motorcars the good roads problem has bee brought very forcibly to my attention, and I have given the subject much thought and study. It is my firm conviction that the continued prosperity of this country and the quick and efficient handling of war preparations cannot be better promoted than by keeping our streets and highways in first-class condition. I believe whatever expenditures are necessary to this end should be made.

NOW CALL ROADS MILITARY

Bill Before Senate Says Government Should Assist in Keeping Highways in Repair.

A bill before the senate says all state roads used by the government should be treated as military highways and the government should assist in keep ing them in repair. The bill was in troduced by Senator J. T. Smith, who has investigated the deterioration of the Maryland highway system. The bill states the government is not to contribute more than two-thirds of the money for repairs nor more than \$1, 000 per mile. It has gone to the senate committee on appropriations.
